14:41:07 - Lori @WELCOA (she/her):  
Here are the four questions Krista provided:

1. How does your program plan/service address health equity and do you have tangible results you can share?
2. Do you collect data on employee populations (including Race, Ethnicity Language, Social Needs, Sexual Orientation, Gender Identity, etc.)
3. What are you doing to assess and improve healthcare disparities?
4. How are you ensuring that your plan/service and the communications tied to it are culturally understood and accepted?
